Note: "Percent Within Gender" describes Gender distribution across Service Areas. "Percent Within SA" describes the distribution of Gender within a Service Area. SED connotes Serious Emotional Disturbance (usually associated with children). SMI connotes Serious Mental Illness (usually associated with Adults). Data Source: CY2013 Population Estimates, prepared by Hedderson Demographic Services and Los Angeles County Internal Services Department Social Services Division. Prevalence measures of Mental Illness for Population Living at or Below 138%FPL from California Health Interview Survey (CHIS) were applied for each Gender in the Table above.
